Concerns and limitations in out-of classroom digital education, especially addressing motivation

Katalin Oláh

University of Pécs

May 27-28, 2021.

„Education and Society" Doctoral School of Education

Key points

- COVID-19 pandemic
- digital transformation
- the impact of the pandemic on the education
- the culture of schools
- concerns and limitations
- digital TMS
- draw a conclusion

COVID-19 pandemic

- brought frightening headlines
- huge challenge to education system
- accelerating digital transformation

Digital transformation

- has attracted significant attention
- questions many (traditional) rules
- ...and confirmed structures

The impact of the pandemic on the education

- innovations in pedagogical practice
- inside and outside (teacher and students/parents)
- the dark side (risk factors)

The culture of schools

- conformity or creative
- trust in teacher as a professional
- reliable student
- building SELF directedness

Concerns and limitations

- poor motivation management
- IT tools - addiction
- further educational inequality

Digital TMS

- planning

- strategy

- tactic

- stages of the motivational process

- (Why only the performance pressure?!?!)

Draw a conclusion

Development or regression?

For whom?

Efficiency?

- Black or white….?

How long and how many times?

In what way?
